Charles Powell and Casper City Council
200 North David
Casper, Wyoming 82601

Dear Mayor Powell and City Council Members,

My name is Tanis Lovercheck-Saunders. Last week, a group of Casper residents approached me with a request: They asked me to put my name forward to fill the open Ward III position on the Casper City Council.

First, I was honored. Ten seconds later, fear hit. That fear morphed into terror when I learned that annexation is on the table. Aware that serving on the Council represents a serious time commitment, I asked for a week to think it over. I remain *both* honored and (a bit) terrified by the idea of serving on the Council. Having given the matter serious thought, however, I decided to put my name forward to fill Mr. Walsh's open spot.

I moved to Casper in 2009 after accepting a teaching position in the History Department at Casper College. My husband had previously lived in Casper while I grew up in Cheyenne. We are active members of the community with deep affection for the city. I continue to teach full time at Casper College. I also teach classes for UW/CC and have been the featured speaker at a variety of Casper venues. My husband—provided he doesn't break his leg preparing for Dancing With the Stars of Casper—works as a photographer and teacher. We have three children—two of whom have graduated (one from NCHS, the other from Kelly Walsh—long story). Our youngest attends Centennial Junior High.

My family and I are active members of Stage III Community Theatre as well as other arts organizations in Casper. In addition, we've been involved with the Casper Humane Society, PFLAG, and several historical associations. Promoting the arts, protecting the rights of *all* residents, and respecting Casper/Wyoming history are areas of particular interest to me.

I hope you will give my application serious consideration. If you have any questions, please contact me @ 307-258-0367.

Sincerely,

Tanis Lovercheck-Saunders

Re: City Council Vacancy in Ward III

This letter is to inform the Casper City Council that I am interested in filling the vacancy in Ward III, due to Councilman Walsh's resignation. Chris Walsh has served this community with the highest standards and will be sorely missed. At this time, I want to compliment the current City Council on the fine job they are doing on the OYD projects, David Street Station and other park projects such as Marion Kreiner in North Casper. During my political career, I have been proud to represent and support the fine and dedicated city and county employees. I keep current on the City Council activities and I believe I have a lot of skills and experience to bring to the council. I want to offer a background of 28 years of public service with 8 years served on the Casper City Council and 20 years on the Natrona County Commission. I have served as liaison on several city and county boards in Casper and Natrona County. This includes being involved in 28 years of budget meetings and numerous One-Cent Projects. I am retired and willing to devote the energy and enthusiasm necessary to represent the Casper City Council. I'm currently a board member of the Casper Kiwanis Club and Skyline Towers. Also, I am active at the Elks Club and with the Knights of Columbus. I am honored to be recently selected by the Casper City Council to serve on the Planning and Zoning Board. I drive for Meals on Wheels helping out 2-3 days a week. I am very civic minded and would greatly appreciate the opportunity to serve on the Casper City Council. Thank you for your consideration.

Conclusion

The duties of a county commissioner are to be a budget officer of the county. You work with the other four commissioners and the other six elected officials in the court house and make sure there is enough money to keep these departments running and pay their employees. You are also directly responsible for county roads, zoning, upkeep of bridges and county parks. There were other county facilities such as airport, fair and rodeo, Natrona County Library, the Agricultural Center by the county fair grounds and the county owned hospital facility that was run by a non-profit corporation; however, the county owned the buildings. We always financially supported Community Action and county and city health departments.

As I stated in my letter of intent, I am civic minded and have a sense of community involvement and it has always been in my blood starting when I was in Boy Scouts to Explorers and even in my high school Civics class. Now that I am retired, I have the time required and passion to serve my community. I have worked with five different city managers during my time on the past city councils starting with Mr. Ken Erickson and ending with Mr. Tom Forslund.

I have only touched the surface of the duties that I had in city and county government, but I believe with my 20 years on the county commission and 8 years on the city council, I would be a valuable asset to the city council. I am very civic minded and work well with people. It would be an honor and privilege to serve and I thank you for your consideration.

WORK SUMMARY

Forty-two years in the oil and gas industry. Seventeen years engineering, supervision, and field operations experience with a major oil and gas company which transferred us to Casper in 1991, the last of six locations. When the Casper office closed in 1994, my family and I chose the enhanced severance package rather than a transfer to either Houston or Midland, Texas. That same year, I started TCF Services, Inc. an oilfield consulting and general contracting business. After some health problems in 2001, I found an engineering job in Casper that allowed me to spend more time with my family and continue consulting on a part time basis. In 2004, I returned to operating TCF Services full time. In 2005, I acquired a business partner and we continued to build the company. Currently, we have restructured ownership of the company and I only work 20% of the time.

Dear Casper City Council...

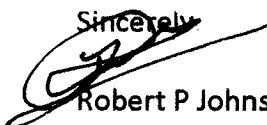

I am writing to apply for the open Ward III position on the current sitting Casper City Council. I've lived in Casper for 25 years, helped start a small business, taught middle school, taught at Casper College, and coached high school in my years here. Currently I am the Director of Research, North America, consultant, and legal analyst for Montaña & Associates: An Access Company. As a resident of Ward III and someone who believes in public service, I feel I can bring my professional expertise and experience as a Casper citizen to help guide this amazing city.

At my current occupation, I help develop and implement policies and procedures for a wide range of companies. An element of this job entails extensive interviewing and direct exploration of corporate business units or departments to obtain the necessary information. This exposure to the intimate details of how large organization functions gives me an insight on the necessary complexity of keeping a city like Casper running. As a legal analyst, I have deep knowledge of laws, compliance issues, and corporate governance. This knowledge base is a positive asset when addressing the issues pertinent to the City of Casper.

As a citizen, teacher, and coach while raising a family, I experience first-hand the work of the council, witnessed the complexity of the issues that needed decisions and guidance, and watched how the city navigated those issues. Approaching governing from the position of a citizen is why city councils exist and why they reach the effective they do when guiding a community.

I look forward to hearing from you regarding the Aug. 5th interviews.

Sincerely,

Robert P Johnson
