

Mariverse - a patriotic art-project run by liars, hypocrites, pedophiles and other degenerates

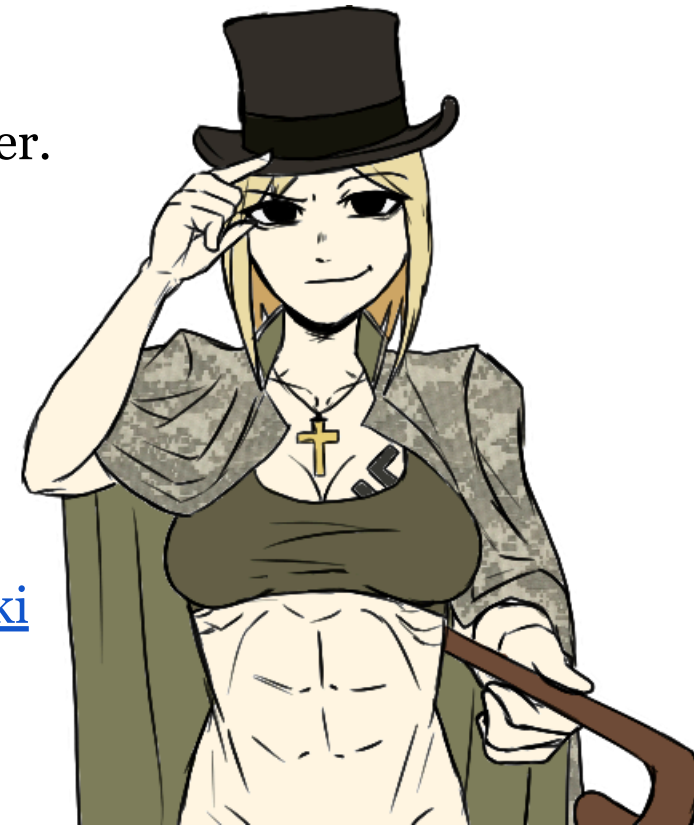

What is mariverse? - it is a ukrainian art-project that started from the character named Marichka, better known as Azov-chan, that was created by x.com/Limestone_block

It has a dedicated wiki, telegram channel and a discord server.

This art-project and it's community revolves entirely around Usergore, a ukrainian artist living in Poland despite lying about still being in Ukraine *more on that later* and her friends

Happy New Year 2026!

In this document I will cover **Usergore** herself and two other most well known Mariverse artists: **Kavunyak** and **Linyvets chan** along with some lesser known ones such as **TonkaKryga** and **Wass Nonnam**

Most information was taken from **Usergone**

<https://kiwifarms.st/members/usergone.191721/>

Their threads about Mariverse artists:

<https://kiwifarms.st/threads/usergore-ekaterina-sova-katherine-usuru-pewquick-deaduse4name-usu4u-hardcorepapershit-sovynoe-dead-username.233376/>

<https://kiwifarms.st/threads/linyvets-chan-lenivets-chan-anna-stuzhuk-vladimirovna-hanna-stuzhuk-volodymirivna-anna-dembitskaya.233414/>

You gotta have a kiwifarms account if you want to view these

<https://x.com/LapisLumos> an ex-editor of Marichka wiki

<https://x.com/Bordfunker133> an artist and AFU soldier who got harassed by the members of Mariverse

Usergore x.com/usergore

First of all I will provide some screenshots of the kiwifarms threads that show her alt-account she uses to make money from making v-tuber avatars while lying about being absent due to russian bombings or whatever on her Usergore account. These screenshots also show how exactly Usergore found her alt along with some of her old accounts and nicknames she used in the past.

Who the fuck is Ekaterina Sova?

USERGORE is, put simply, a Ukrainian refugee in denial, creator of the **Marichka Wiki** (but not of its characters.)

She lies about being in Ukraine when she lives in Poland. When asked about why her twitter is in polish, she says "she's learning it", just as much as she hides her real gender on the usergore account.

Hides her absences by blaming Russian bombardments when in reality she's working on her vtuber artist career in the comfort of her house in Poland.

She also hides her gender by referring to herself as "he", but as you will see, she's not very smart.

| HOW I FOUND HER |

Considering her lovely discord server, where people joke about rape, bombing donetsk children, and all that ukrainian nationalist stuff, I looked for someone in the high-ranks with a linked steam account.

Through someone posting his account in the discord, I bumped into Bread's, and what do I see? User commenting. (<https://archive.is/GMSRR>)

user 10 Nov, 2024 @ 4:37am
this bread IS THE LAW!

Naturally, I click on "his" profile. It's private? No problem! I slap it into SteamID and look for the past names, and there I open Pandora.

"sovynoe" and "usu4u" are the previous URLs to this profile.

I google sovynoe, but find only one comment in 2016. Then I google usu4u, I find "deaduse4name", and find a sankakucomplex link containing a nanachi artwork.

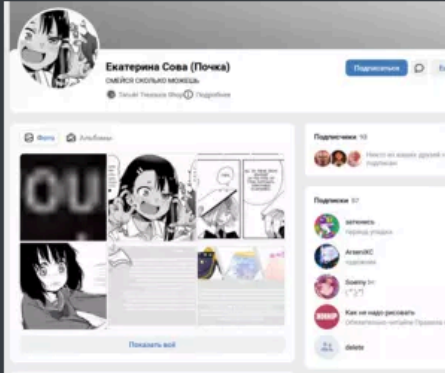

I use saucenao, and find her other name, "pewquick", and two dead accounts having deaduse4name and variants.

Through "pewquick"'s deviantart, I find another username in the commission references (<https://archive.is/ranCH>), "hardcorepapershit".

(oh look! it's the nanachi picture!)

EKATERINA SOVA

<https://archive.ph/4tIBj>

You can clearly tell how her art evolved through the year and into what it became today. Her age was on a minecraft forum account she made in 2016 or so.

A screenshot of a social media profile for 'Екатерина Сова (Почка)'. The profile picture is a black and white illustration of a girl with a wide, toothy grin. The bio says 'СМЕЙСЯ СКОЛЬКО МОЖЕШЬ' and 'Tanuki Treasure Shop'. The main content area shows a grid of images, including a large 'OU' and several comic panels. On the right, there are statistics for followers and subscribers.

Remember when I said she was not very smart?

<https://archive.ph/gBDfZ>

She put one of her pictures she drew as USERGORE in her goddamn vgen, ONLY CHANGING HER SIGNATURE, showing that "usuru" has indeed the source files to her Estonian friend's commission (GENIUS). She also removed the Z sign from the artwork, but hasn't changed anything else (you can still see the azov patch behind the watermark)

As you can see she lies about her identity. However she and her friends went as far as harassing an actual AFU soldier, Nachtjäger-chan or Bordfunker133. One of them even threatened to punch her in the face. They stole her crowdfunding idea for fumo dolls of Mariverse characters after kicking her out of the community. Why? Because she drew a Ukrainian VDV girl which is considered Russian propaganda or something.

I wish I knew myself man
from my perspective there seems to be some big misunderstandings going on between us, and some assumptions about me have been made since. I really dont want to get into it again since its not going to resolve much

crazy dude @Weltschmerz09 · Oct 23
Have you talked to her about it?

USERGORE @usergore_ · Oct 23
yep

crazy dude @Weltschmerz09 · Oct 23
Well I hope eventually whatever happened gets resolved.

USERGORE @usergore_ · Oct 23
I hope so too. The last kind of people I'd want to be in any conflict with are my fellow countrymen, especially in the middle of war. The whole situation upsets me

Yes. She deleted my comments when I asked about this Russian character.
And yes, in Telegram, one of Mariverse fan, a right wing soldier of AFU threatened to punch me in face for drawing VDV (although there WAS VDV in Ukraine until 2014).

Wed 8:56 PM

← **Nachtjäger-chan**
@Bordfunker133

Also Usergore is blocked me everywhere. Even my friend, Ukrainian AFU soldier tried to talk to her to solve conflict, she deleted his messages and ignored him as well. Well, in Twitter she is claiming that she had talked to me and discussed all the things but no, she just quickly sent a reply in Telegram and blocked me without trying to listen to me.

Also, Lenivets or other artists from their community who worked on that Fumo promo stole my idea of Fumo being attached to drone in that default pose. How funny how video comes weeks after my drawing....will someone tell em?...

Nachtjager being threatened with murder by a banderite in Usergore's telegram, then mocked by expat owners of the Marichka art channel.
Usergore stealing Nachtjager's idea of selling fumos

what did they mock her for?

She was calling them out for something, I don't remember exactly, and the owners just went up and reused what they deem "zigger propaganda" and called her a "pig", and said she was "oinking"

Keep in mind, said owners are in usergore's discord, and are ALL expats

No one is in the AFU, the only guy who was there on the frontline hasn't been posting in a while

You will realise why it's kind of important after reading about the second most well known Mariverse artist, Kavunyak.

Kavunyak x.com/FunkiFlame

As I said he is the second most important and well known artist after Usergore. He is also a pedophile who offered people “children porn” and posted real life child gore on Discord in 2019.

These are the screenshots from kiwifarms that, again, show what he did and how he was found out.

Kavunyak is a member of the **Marichka Wiki** (don't deadname her by calling her "Azov-chan", USERGORE may be tolerant to pedophiles but certainly not nazis!!!) and one of the main pro-ukrainian artists of the conflict.

He created an OC, "Eva", and drew her with other characters on the wiki, especially with Marichka and **USERGORE's** own Georgian Legion OC, Nika.

<https://archive.is/UJNWA>

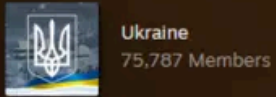

In a way, you can consider him to be part of the "holy trinity" of the Marichka Wiki, that being made of **USERGORE**, **Linyvets-chan** and **Kavunyak**.

Unmasking Kavunyak

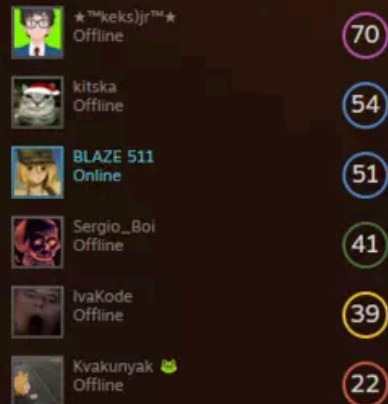

I was getting bored one night after exposing the poster "boy", and so I sought to look closer at one of the other most-annoying members of the wiki, so I did what I did with USERGORE, but I didn't know which one was Kav's steam, and so I looked through their shared friendships. And where I find him?

He removed from his friends a lot of Russians in the months following February 24th, including **Sovamaru** and **Koto-Krys** (remember their names!) I double-check them and see that they are also friends amongst each other. I double-search Кото-Крыс's first username and find an email linked to a full name and a VK.

<https://archive.is/q1NfD>

Interesting. I reach out and ask him for information about his old friend "Molochy", whom he "had a falling out with", and he admits to knowing him, but does not reveal his name.

Then I find Sovamaru's youtube channel, who's friends with Koto and formerly with Kav, and I find a discord in the bio, long-inactive. I join it, and what do I see? "Molochy."

<https://archive.is/oOFwk>

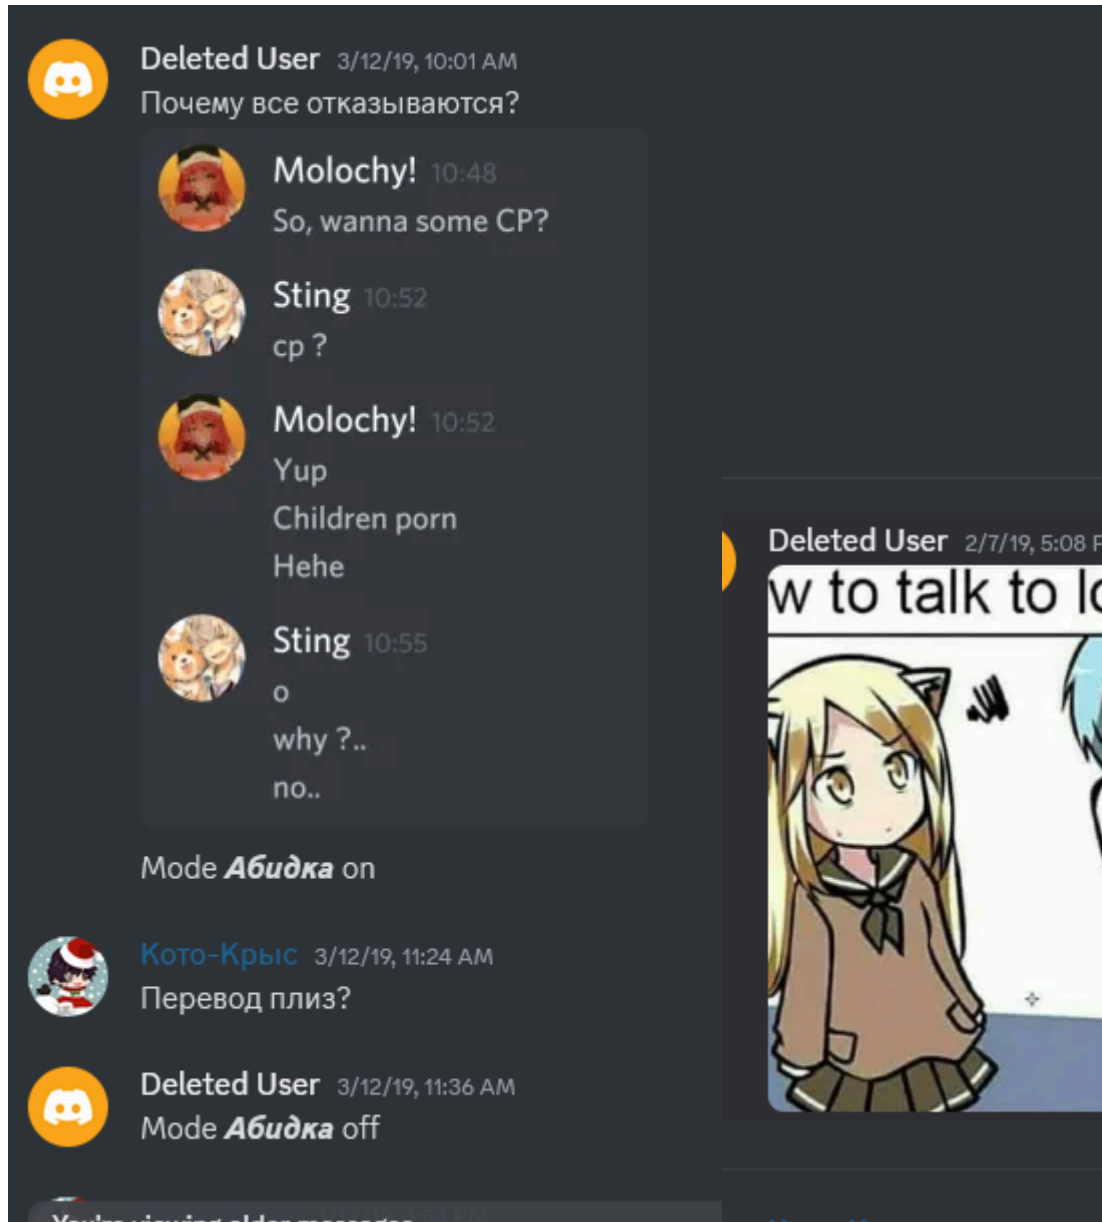

What follows next is disgusting.

The Discord Server.

Offering child porn, posting child gore, and humiliating himself for clout!

I find his now-deleted alt (proof that it's him below) posting loli porn, trap porn. Someone screenshotted an instance of when he posted child gore and in another asked someone if they wanted CP.

Offering “children porn”

He also complains about people refusing his offer

If that wasn't enough proof, I find his current account, kavunyak, in the server, accompanied by his now-deleted primary account. He sure loved making a lot of alts, but wasn't smart enough to burn the ones associated with his hated russian friends? Look at the creation date and name.

Attempt to expose Kavunyak

Some people got mad after seeing the Kiwifarms threads in early 2025 and tried raiding Mariverse wiki and discord server along with posting about it on 4chan.

It resulted in all of them getting banned and their messages deleted.

Mariverse artists and other members including Usergore herself were laughing at these people and still make fun of them to this day.

Well well WELL WELL. What do we have here?

A quick summary of how today is going

The Marichka wiki page about eva is being raided, **an actual ukrainian took it upon themselves to spread the word and tried to join the USERGORE server to convey the message** to the community at large, and the edit wars are still going on through noble volunteers.

Eva

Buckle up guys, because this is gonna be a lot to swallow...

KAVUNYAK - THE CP-SHARING, CHILD GORE-POSTING ARTIST OF THE MARICHA

KAVUNYAK | FUNKIFLAME | MOLOCHY | DALBIL

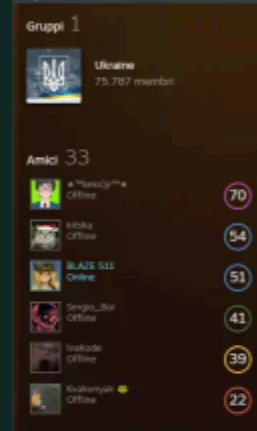

Kavunyak is a member of the Marichka wiki and one of the main pro-ukrainian artists of the conflict. He created in several situations, especially with Marichka and USEGORE's own Georgian Legion OC, Nika.

<https://archive.is/UJNWA>

In a way, you can consider him to be part of the "holy trinity" of the Marichka Wiki, that being made of USERGORE

I was getting bored one night after exposing the poster "boy", and so I sought to look closer at one of the other members of the wiki, so I did what I did with USERGORE, but I didn't know which one was Kav's steam, and so I looked through his profile to find him?

<https://archive.is/wv2ax>

Oh, Kavelin. I hope the Russians will be kind to you once they take Ukraine.

I open up SteamID and find his past usernames, alongside four alts all called "molochoy", one of which being in his profile. Searching them leads to nowhere. So I take a look at his past friends, and look for a pattern.

Spoiler: steamID avatar and friends

He removed from his friends a lot of Russians in the months following February 24th, including Sovamaru and I see that they are also friends amongst each other. I double-search Кото-Кравс's first username and find an email <https://archive.is/q1NEd>

Interesting, I reach out and ask him for information about his old friend "Molochoy", whom he "had a falling out with".

Then I find Sovamaru's youtube channel, who's friends with Koto and formerly with Kav, and I find a discord in his bio <https://archive.is/o0Fwk>

What follows next is disgusting.

I find his now-deleted alt (proof that it's him below) posting loli porn, trap porn. Someone screenshots an instance of someone if they wanted CP.

Spoiler: Pedophilic comments

Spoiler: WARNING: CENSORED CHILD GORE

And as if that wasn't enough proof, I find his current account, kavunyak, in the server, accompanied by his now-deleted alt. He sure loved making a lot of alts, but wasn't smart enough to burn the ones associated with his hated Russian friends.

Spoiler: Proof it's actually him (creation date, name, and server)

He posts his own pornhub (which is still active!!!) and it reveals his gender and location, which claims he is in "France". <https://archive.is/EwPID>

Here are the screenshots of the guy who tried to expose Kavun and got mocked by Usergore afterwards.

4chan banning anyone talking about Kavunyak

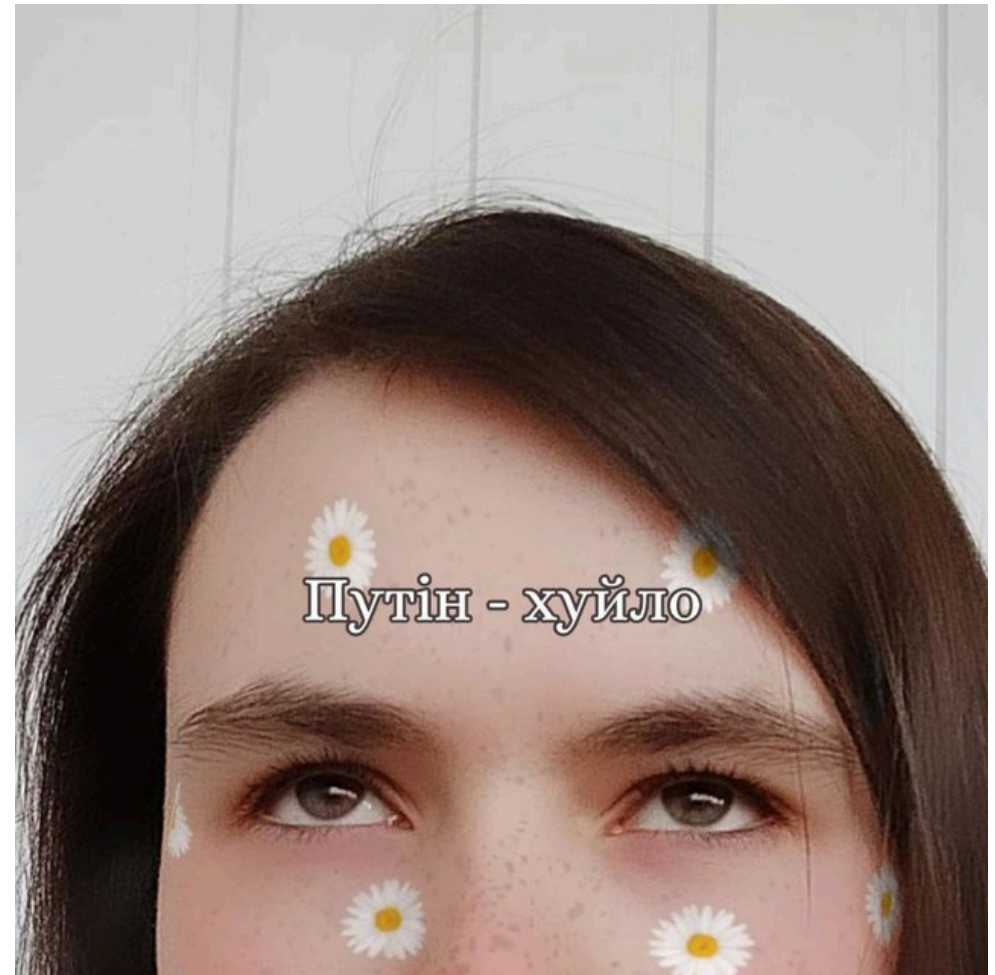

And that's pretty much it. After this there were no more attempts at exposing Kavun or Usergore. Usergore made a couple more threads after the one about Kavun and seemingly disappeared around the end of 2025.

The following sections are dedicated to a few other Mariverse artists that did some weird shit behind closed curtains.

Linyvets x.com/Linyvets_chan

She is the third most important artist after Kavun and User. Cheated on her boyfriend who was fighting on the frontlines at the time with her Russian ex who claimed to be a patriot and said that she was “*sending nudes to a zigger*” during their ERP sessions in 2023. Read about it in the screenshots attached below.

Before her patriotic art era she used to draw countryhumans porn of Ukrainian and Russian SSR. These were provided by her ex.

Oh shit

Did she say anything?

When did you date her?

Did she ever draw your OC

Just one second, I want to prove to you the truth of my words.

Did you two break up because of the war

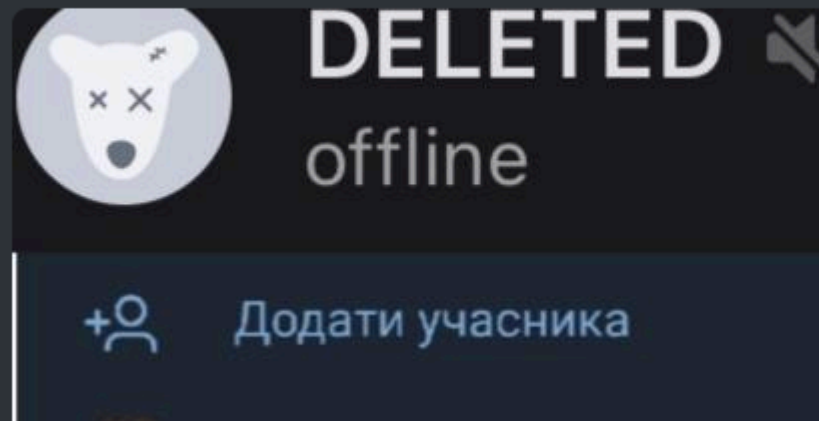

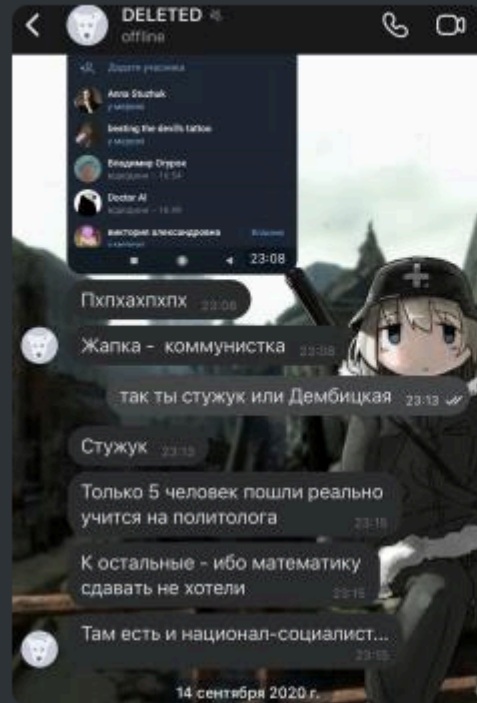

No, we broke up a year before the war because I was still inadequate and stupid back then.

What did you do

Have you ever read your old social media conversations?

Her name is Anna Dembitskaya.

Dembitskaya is her maiden name, Stuzhuk is purely legal.

Considering how she dated you does she really hate Russians?

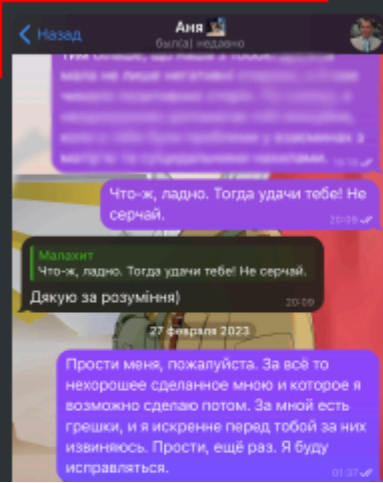

Don't forget that we broke up.

Were you the one to break up

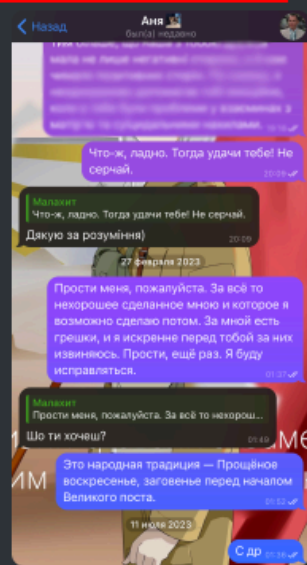

She hates Russians, and it seems to me, quite sincerely.

We both lost interest in each other after a while. I tried to write to her last year, but it was unsuccessful.

she blocked you?

she blocked you?

On Forgiveness Sunday I apologized to her, and on July 11th I congratulated her on her birthday. Nothing more.
By the way, Forgiveness Sunday is an Orthodox tradition.

I figured
what did you two talk about before

About everyday life, they were terribly depraved and vulgar, stupid.
(We stupid, not you)

what you guys were sexting?

yeeeees....

A whole two years after breaking up, a whole year after the beginning of the war
And you two were typefucking?

We broke up in 2021, by the way.

was it like roleplaying

Yes.

Nudes, flirt and ERP.

Doesn't she have a boyfriend in the AFU

I think so, I don't know. I wouldn't want to reveal to him the inconvenient truth about his girlfriend.

I'm just
surprised

I'd say "Ukrainian women not beating the allegations" but it's in bad taste
lol

Hah

By the way, I was a Russian patriot before the war. So... You could say she was sending nude photos to the "zigger"

eh

After the war began, I became very disillusioned with my views.

I think you already know that she used to draw Countryhumans.

Keep in mind that these people will remove wiki articles or bully artists like Nachtjager chan for the most bullshit reasons ever such as character's name sounding "too russian" or as I said earlier "drawing an anime girl in Ukrainian VDV uniform" while stroking their dicks to CP and interracial rape porn of their mascots.

I'd also like to mention that USERGORE's staff team on the main Marichka Wiki itself have removed characters for the most trivial and bullshit reasons. If you check the wiki's history, there was a page titled "Viy", which was removed because "the character's name sounded Russian so we removed it". The amount of imbeciles on that server is way too much. I poured effort, hell, I poured detail into that page (I have written over five THOUSAND words), yet they deleted it for the most trivial of things:

Let me put this straight. First, the character was agreed with USERGORE in Twitter DMs. Second, I was in the discord server, I knew a lot of people on it before I left due to the toxic environment. Third, ITS A UNIVERSAL NAME. IM SURE THERE ARE THOUSANDS OF UKRAINIANS NAMED "Gleb" FIGHTING ON THE FRONT. If you want proof if the page has been deleted, here's the link:

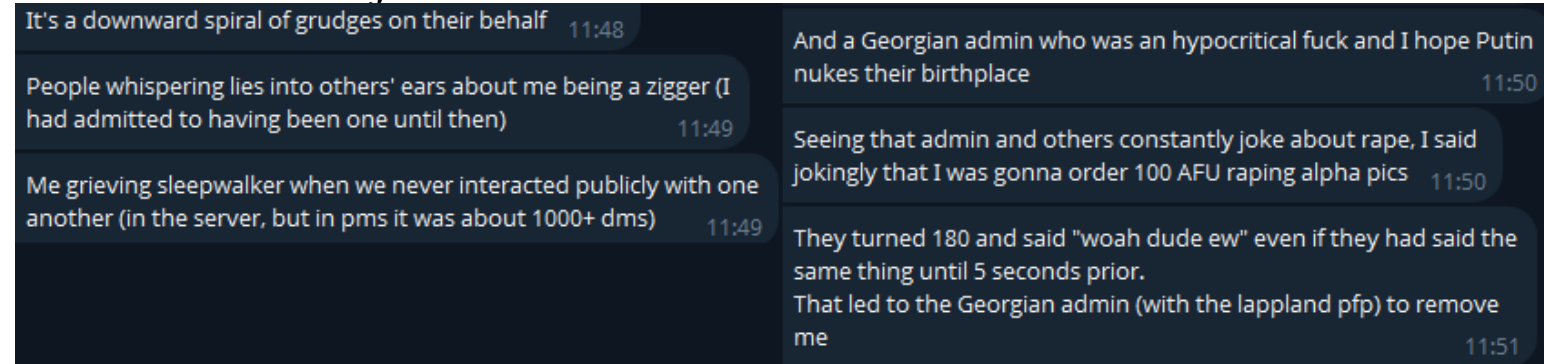

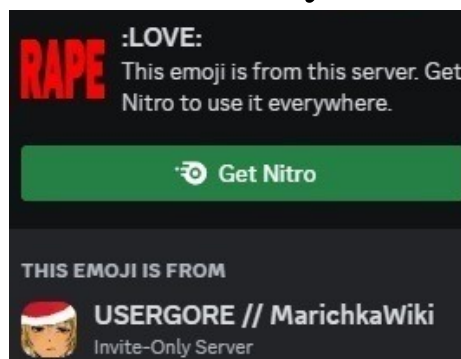

Pygmalion/Lapislumos

As I said before he is the ex-editor of Mariverse wiki. When his friend [x.com/marine wee24348](https://x.com/marine_wee24348) who's an AFU soldier died he tried to get help with managing grief from other members of Mariverse on their Discord server and ended up being made fun of and bullied.

Later on he began to upload pictures made by Usergore and others on Danbooru. Usergore seemed to be happy about it when talking with Pygmalion in DMs.

But then turned 180° when talking with her friend and called Pyg an autistic who's overly fixated on uploading Mariverse pictures on Danbooru.

He ended up getting banned after making a joke about commissioning 100 pictures of a Russian mascot getting raped, despite the entire server joking about rape all the time. They even have custom emojis for this.

Malpelo Today at 01:16
Oh, so now my grief is 'absolute bullshit'

I regret not having kept you in my blacklist like I should have when you first showed your less-desirable traits back in March or so. And I regret having lost my composure with others who simply wanted to tell me how illogical I was being.

Your post is, yet again, putting the attention on me, rather than **you**. Here you don't bother to even answer Viy and only put the focus on myself without bothering to read the context. You could've said anything about how bad me wishing for death was, it was your 'right' and I wouldn't said anything, but you had to add to it the 'you weren't even friends with him', which just shows your lack of a drive to understand the suffering of others and are quick to judge.

Maybe it's because of your limited comprehension of English, but I've known others who spoke it worse than you who could understand something as trivial as someone's grief spilling. You here, yet again, as you did before, **assume** shit about me, like you did for my bond with Sleepwalker. How do you know if I'm not already seeking help? I didn't bother to say anything in this server, as one should when it comes to mental health.

If you didn't want me to dump all that 'absolute bullshit', then perhaps you should've considered that I'm human, and have feelings too, and told me not to say those things instead of going 'that's fucked up' or assume, for some reason, that I would feel strongly about a person that, in your mind, "I never spoke to" (edited)

Some people from Mariverse also think that **Usergone** is Pygmalion for some reason. Which is partly why they're still pissed off at Pyg and make parody art of his character Otaman.

All Hail Kavun

It got the attention of a "whistleblower" formerly belonging to the wiki, showing more about this lovely community.

Following allegations of Kavunyak being a pedo, I have decided to reveal everything about USERGORE's server and what I had to go through.

I dedicate the following to Sergeant Mykhaylo Krushlov, callign "Lunatic", a 19 year old Ukrainian marine from the 200 Marine Brigade who was sacrificed on the altar of international propaganda by Zelensky and his corrupt Military, just like many other countless young men who are now mere numbers on a classified scrap of paper.

Here you can find two versions of my telling and the screenshot chat I have with Sleepwalker as proof of our friendship. I will be updating my already shared chats with USERGORE and Transfer-Seasons at the coming days.

Following my bar, the allegations of Kavunyak being a pedophile, and USERGORE lying about living in Ukraine, I have decided to come out and publicly reveal almost everything I have witnessed this past year.

I dedicate the following to Sergeant Mykhaylo Krushlov, callign "Lunatic", a 19 year old Ukrainian marine from the 200 Marine Brigade who was sacrificed on the altar of international propaganda by Zelensky and his corrupt Military, just like many other countless young men who are now mere numbers on a classified scrap of paper.

1. When and Why I joined

I joined USERGORE's server in January 2024. Until then, I had been a Russia supporter, but I was always drawn to the character Marichka, (AKA "Azov-chan").

Do you have at least a bit of decency, you think the Sleepwalker died so you could publicly muck his name? Publicly shaming his reasons and motivation using as profile art I made for him when he was still alive?

I dont care about your stupid drama, but what you're doing is absolutely disgusting

Tonka went as far as telling Pygmalion that it was actually very disrespectful to tell people on Kiwifarms about the death of Pyg's friend and how Mariverse members made fun of him for trying to find help with dealing with grief. The irony.

I hope you had the patience to read this entire thing until the end. Do what you will with this information, I just thought that more people should be aware of it.
