

EPISODE 20 - CHEESE ROOM

*Act 1: G sets up a **series of disgusting challenges** to test the Famous House cast. Alissa walks out, and the rest of the Famous House cast are conspicuously less game to participate in the fucked up activities than the fish. As things progress, however, they become more compliant.*

*Act 2: Alex's final act is to set Burt on a quest to learn more about Donald Trump. Production begins to eliminate the cast one-by-one. Kawan begins to panic when he realizes he may be next, and Fatty tells him to make his exit memorable. **He lashes out at everyone before smashing the Fishtank sign on his way down the stairs.** Luke is briefly fooled into thinking he is being kicked out with the others, but is allowed to stay and messes with Burt at night.*

*Act 3: Luke prepares to come clean about why he was cast, and what his prior reality TV experience was. He tells everyone the story of how he was on Big Brother and why he was eliminated for saying "nigger" on the live feed. Fatty pressures the fish to mess with each other, but Luke tells them to target Fatty instead, until Binx pelts Burt and Fatty with rotting fish. **Burt prepares to become Gold Burt and is given a strange victory ceremony in the Yard,** before production announces he didn't win and they're leaving the house in an RV.*

Act 1 -

Binx, Payton, and Tony are sealed inside a ball. ~~Jobe is brought in to watch as Binx and Payton roll around and have fun. Tony is added, and G brings seafood for the fish to fill the ball with.~~ The ball-fish escape, throwing raw seafood out of the ball at the others and then chasing them down across the house. Jet is caught in the crossfire as Red Shark and goes berserk, smashing glass, the grandfather clock, and the hutch in the dining room.

G splits the fish into two teams for "hair hell." The team that shaves the most, by weight, wins. (The team that loses has to vote someone out but that doesn't happen so cut it.) Luke's team shaves Luke and Jobe bald. Burt cheerfully shaves his eyebrows, mustache, and entire pubic area. The Ball Bros., Alex Stein, and G take over the vanity while Luke shaves his head. In the den, G warns Alex that if Alissa doesn't clean bedroom 3 then he wants her kicked out. Alissa volunteers to leave rather than clean. Fatty arbitrarily declares Luke's team the winner because they are visibly more shaven than Binx's team.

The final challenge of the act is the Baby challenge: there are no particular winners or losers, so the emphasis is just on good fx3 of the fish mauling each other's babies. Binx sits with Kawan in the penthouse where TTS commiserates that she doesn't want to be on his team. Alex tries to put Burt's TRT into his baby. Jobe burns a baby to get alcohol, throws Binx's baby across a room, and wrestles Kevin screaming "I want that black baby!"

Luke cross-examines Binx and Lily in front of Fatty's courtroom. Lily is sentenced to public indecency.

In the morning, Burt confronts Alex Stein about the location of his baby. Alex tells Burt his baby is dead while hugging him, while Burt spazzes out.

Act 2

Alex follows Burt to his room and they debate about Donald Trump until Alex gets a Donald Trump impersonator on the phone. Burt offends Trump, saying it's not the real Donald Trump. After some arguing, Burt becomes convinced it was the real Donald Trump.

Confessional: Burt reads aloud an official apology from Fishtank Production Team.

Alex says his goodbyes to the cast, and Burt is given a MAGA hat. Throughout his goodbye Alex makes fun of Kawan, until he throws a taco at Kawan for backtalking him. Luke takes Burt aside and tells him that this Trump situation could be an opportunity to explore a different part of his personality. Xavier chimes in on TTS, encouraging him to become based, and learn "what it is based on." Binx and Luke talk to Burt in the yard, teaching him "what he needs to know about being based," and how to act more black, and they come up with the phrase "make america Burt again" while TTS encourages Burt to ask Luke about the cheese room.

Confessional: Payton says Burt acting black makes her uncomfortable.

- They continue in bedroom 1 where Luke pretends to be a white neighbor that Burt must mug with a gun
- A few hours later they continue. Luke offers Burt a pink lighter and he grabs Luke by the collar and says he isn't gay.
- Luke tells Burt that finding the cheese room is part of his quest.

Confessional: Payton tells TTS she doesn't even really want to win anymore because she hasn't earned it.

- Vance takes Shelby into the confessional and warns her that the immunity token she found yesterday is an "elimination token" so she must immediately leave.
- Sky and Star are tasked with doing a cooking challenge for Fatty, but are eliminated as soon as they are done because their names are too similar.
- Vance takes Tony into confessional and tells him that because there is a fraud alert with his bank, he has to go home.
- Lily is told she must chase Tony out of the house.

Kawam goes upstairs to cry, and Luke wonders aloud if production will kick him next.

Vance warns Burt that he has found the Elimination Token. The fish play hot potato with it until Kawam get stuck with it, and Sam asks him "you know computer is other people, right?" Ben takes Kevin aside and tells him he must leave because he got an offer from a "mormon modeling agency."

Confessional: Fatty tells Kawam to make his exit memorable.

Kawam heads to the yard and smashes the elimination crystal on the ground. Ben tells Kawam there is a diamond-wrapped cyber truck outside and he has to go get it. Payton spills the beans

on the show to Kawam and he gets angry, saying the show is rigged, and says he knew everything the whole time even though he can't remember the names of anything. On his way out Fatty reminds Kawam to "make it memorable" again, and Kawam smashes the fishtank sign.

A TTS from Vance tells Luke he must go to confessional, and he enters wondering if it was a real message from production. Another TTS tells him, "you got pranked idiot."

In the locker room, Jet warns Burt that he needs to get over his mind wipe and tries hypnosis. Burt pretends to be better but when Jet is gone says he still doesn't know anything.

Confessional: Burt explains he can use his schizoaffective disorder to delude himself into thinking things that are not true.

Burt and Luke wrestle over the penthouse while Luke reminds Burt to get his memories back, and Burt smells Luke's shoes.

Act 3

TTS reminds Luke about the cheese room again, and he tells Chris he wants to tell everyone about it. Binx guesses some of the details when she joins him on the couch. At the island he launches into a full explanation: how Big Brother used to livestream until he accidentally said nigga, how they called him into a depressing dressing room and he broke down, how people harassed his mother and family afterwards. Luke says he already has an n word pass that he paid \$650,000 for (the prize money for big brother).

Confessional: Luke talks to Fatty, who says it's time to motivate the fish into fucking with each other.

Luke gives the fish advance warning that the fish are being made to target each other. Binx hurries upstairs and dumps milk on Fatty's bed. She tells Luke and Payton and they gather the fish ball, which still hasn't been thrown out, and take it to the loft. Fatty dumps sauce on Binx and warns her that she is being "targeted" by Burt. Binx goes to the loft, Burt goes upstairs and calls Fatty in, and Binx pelts them with rotting fish.

Confessional: Payton says she wants to go home because she's over the messy house.

~~Burt discovers there are beans in his suitcase and flips out, saying he's "dark Burt" again and trusts nobody while wandering around his room whipping things.~~

~~Burt gets a letter from Alex begging him to win, and is given a radio. On the other end is Jet doing an Alex B impression, encouraging Burt to make it to the end.~~

In the morning continues his rage, throwing things out of Binx's suitcase. He throws her orange wig in her face while TTS says "smash it smash it." They begin to throw heavy bathroom items at each other until production pulls Burt from the room. Binx approaches Burt in his bedroom and spits in his face, he chases her from the room and screams "I want her out of here!!!"

Payton warns Burt that something else may be happening and all he has to do for now is stay calm. Ben asks Burt to lotion himself entirely with yellow and gold paint. Burt is brought into the

yard and presented with various decorations and is told “congratulations” for becoming Gold Burt.

Burt is given clues when Payton tells him he’s been lied to the whole show. He finds a keycard in Binx’s luggage, but Binx quickly explains in confessional that they received those during the prison challenge. Luke says he thinks production is just fucking with him again. Sam and Fatty come from the basement and tell Burt that the show is over and they’re ending early and giving the prize to Binx because the Truman Show ending they had planned for him was fucked up. Luke and Burt idle around the house gathering stuff from the set and cleaning while Luke mocks Burt for fucking it up. They eventually make their way to the basement.

After a cut to black, Goldstriker reveals that they are going to continue the show in an RV.
