INTRODUCTION

This document will outline who Unlas, also known as w23c, is, his actions, behaviour, and what we as the community can do about him.

This document seeks to inform to the fullest extent, you are all free to and I encourage you to come to your own conclusions after having read this.

WHO IS UNLAS?

Unlas is a former Chat Moderator and a notorious member of the community, you may also know him as the author of several of the drama documents spread around in the past year. Unlas has in his time in Risk constantly:

- Said slurs
- Harassed people
- Insulted certain ethnic groups
- Forged evidence against people
- Doxxed and encouraged others to doxx people
- Sexually harassed members of the community

...and more.

Despite being banned, Unlas has continuously been able to do all of the above and more through the use of alts and by convincing members of the community and staff team, a lot of times them not being aware of the true extent of his actions, to do his dirty work for him. He is also aided by a network of friends among the staff ranks, in some cases they keep this connection hidden and we aren't aware of it.

In the past, Unlas managed to remain in the community due to a very lenient enforcement of the rules and due to the fact that most of his friends were high ranking members, with them constantly protecting him. Nowadays, him and his friend group use their past friendships with Amnity to manipulate him and take advantage of the respect he has for veteran members of the group, to not only make him do whatever they want, but also to keep their positions.

Due to all of this, his harassment of people and weird behaviour in the community, has continued, that and the manipulation of people is the reason why this document has been made. But it is not enough to just talk about it, I think it's time to show you some of what he has done

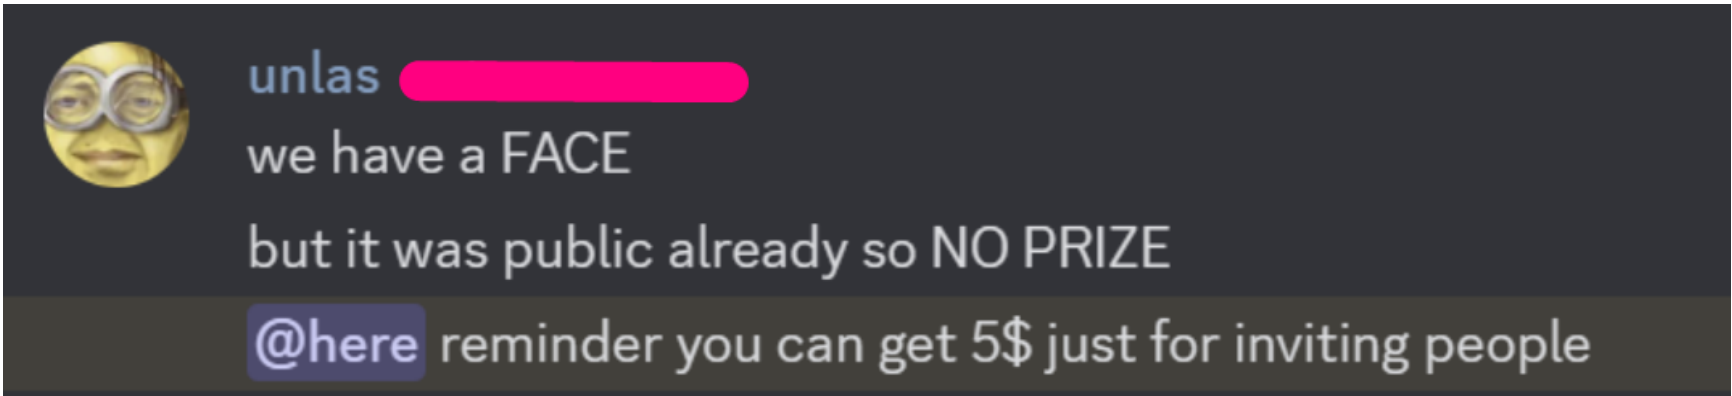

EVIDENCE

Unlas disguising himself as Xenvox,who was a high rank at the time, and then asking for CP

(Also using the n-word hard R at the end when confronted about it)

One of the doxxing operations he started

Sexual comments, including a weird obsession with rape and in the case of the image where he has deleted his account, justifying drunken rape and saying he has CP. For both of the images where his account was deleted, I uploaded two videos to Streamable that proves they are the same person, feel free to check them out, we took the ID of both and verified that it was the same.

One of the cases where he attempts to forge evidence against an individual.

A vast array of weird comments, including:

- Calling the people at the Nuremberg trials innocent
- Calling Arabs “unredeemable barbarians”
- Randomly DMing people telling them they got groomed and then saying “the light of Adolf Hitler can DM you”
- Continuous use of the N-word, hard R.

We have also uploaded a video on Streamable showcasing this type of behaviour in another server, feel free to check it out.

I will first send a video showcasing the VC, Unlas is icecold, remember the voice for the rest of the videos, as they were cropped due to the user switching to sensitive info during their recording.

I will now send the rest of the videos.

I will now post the full Trial Moderator app we got under the name of Unlas, while it is not confirmed that it was him who sent it, and there is no way to verify it, what makes me believe that it is him are the following:

- The app states he runs a discord server, which Unlas does, with him and his friend group
- It has some of the same topics we have seen Unlas talk about in the past.

However, look over it, take into account the context of how we know Unlas acts, and come to your own conclusion.

CONCLUSION

In what is certainly an understatement, I think we can certainly say that Unlas is a very low quality user, one who has no place in a community filled primarily with children, especially when you realize that he is a 20 year old man. He has only been kept around due to a failure to properly enforce our rules, and as one of the Executives, I want to apologize for that. As said previously this document has been made due to the fact that not only does he keep on doing all of this, harassing members of our community, saying all of this in a community predominantly filled with minors, but also because he manipulates certain people to do his work for him by falsely portraying himself as having done nothing wrong, and we want all of you to be aware of who he truly is and what he truly acts like.

WHAT CAN WE DO?

I encourage all of you to freely talk about the contents of this document, even better, DM me or any of the Executives+ you feel most with comfortable talking to with your thoughts on the matter, we aim to hear what our community has to say. I also want to be transparent with another thing, we have shown some of this to Jihadi Jamal, a member of RubenSim's Moderator team, and together with him, we have managed to report Unlas to about 20 other Roblox groups and gotten him banned,

With that in mind, another thing you can do is spread the word, report this to the Administrators of other Roblox communities, send them this document, also send the account list we outlined below. And lastly, the best thing you can do, is block the accounts outlined, report them if you want Remember, he is still active in a lot of Risk affiliated and adjacent servers, so keep an eye out.
