I'm a huge fan of your reviews and I was wondering if you would review my stories on FIMFiction.Net , and tell me what is good and what I need to improve on , I would really appreciate that .

(This was literally the first message he ever sent me)

MrEnter said the following:

Sorry, I don't do fanfiction reviews.

I'm not talking about Nostalgia Critic style reviews , I'm just asking you to look at them and tell me what I need to improve on .

I'm sorry . I apologize if I rushed for your opinion on certain points , I apologize for rushing you to do stuff for me , I would never do anything to get on your bad side . I like your videos and you are a really nice person . I really want us to work together on some points and I cannot say how sorry I am if I was a bit of a bother to you .

Can you forgive me ?

MrEnter said the following:

Yeah sure, I'm not offended or anything. I just prefer to work alone.

I'm glad you accepted my apology , but when you said you prefer to work alone , does that mean you like working on your own things by yourself and just your own things , or do you sometimes give people helpful hints on what they do ? I am just asking .

MrEnter said the following:

I look working on my own things by myself and only on my own things.

I'm understanding towards that , how about the next time we talk , it would be about our opinions and what we do or do not like , how is that ?

I'm wondering your opinion on Billy & Mandy

Guess I never responded; this was the last message between us that I could find.
